

MOMENTUM IS BUILDING

- Project delivery across Texas and the Southeast U.S. region
- Proven cost certainty — from pre-construction through completion
- State-of-the-industry manufacturing — 100,000sf plant expansion in 2019
- In-house engineering, BIM capabilities and VDC support
- Named “Top 50” Glaziers in the U.S. by *Glass Magazine* in 2019

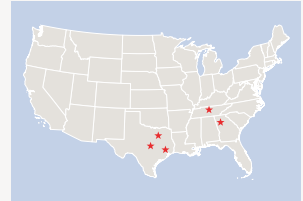

WE STARTED WITH A CLEAR VISION

Momentum was founded in 2011 to establish a higher standard of innovation and excellence. We're known for our integrity, hands-on approach and — most of all — our top-notch team members. Our valued customers are leading general contractors, architects and owners. They depend on our full-scale, turnkey capabilities: professional pre-construction services, in-house engineering, state-of-the-industry manufacturing, attentive project management and best-in-class field installation.

DELIVERING INNOVATION AND INTELLIGENT SOLUTIONS

Resources and reach to support projects across Texas and Southeast U.S.

With our strong base in Houston, Dallas and Austin, we have the resources and capacity to cover Texas — with regional operations in Atlanta & Nashville.

Leveraging technology to improve response time and coordination

A leader in applied BIM/VDC capabilities, we continue to invest in our teams and systems to better interface with architects' and contractors' shop drawings and quantities.

State-of-the-industry manufacturing optimizes quality and capacity

Our 100,000sf expansion in Houston puts us at the forefront of delivering multiple large projects concurrently of the highest quality.

SAFETY ISN'T A DEPARTMENT, IT'S A CULTURE

We are committed to safety by valuing proper planning, training and implementing comprehensive safety programs.

Each employee attends regularly scheduled safety training seminars, operations management and OSHA training.

With zero lost-time injuries and an enviably low NCCI Experience Modifier, our proactive approach works.

BUILDING CLIENT RELATIONSHIPS ONE SUCCESSFUL PROJECT AT A TIME
